SUMMARY

Full-Stack Developer proficient in building high-performance, modern web applications with Next.js (App Router), React, TypeScript, Node.js, and modern databases (PostgreSQL, MongoDB). Experienced in architecting server-rendered platforms, RESTful APIs, and BaaS integrations (Appwrite). Skilled in implementing dynamic SEO, strict data validation (Zod), and responsive component architectures with Tailwind CSS, deploying production-ready code to Vercel and cloud platforms.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL, JSON

Frontend Development: Next.js (App Router), React.js, React Native, Vite, Tailwind CSS, Responsive UI Design, Component Lifecycle

Backend & Cloud Services: Node.js, Express.js, Appwrite (BaaS), NextAuth (OAuth 2.0), Telegram Bot API, RESTful APIs, Zod, Mongoose ODM

Databases & DevOps: MongoDB Atlas, PostgreSQL, MySQL, Prisma ORM, Git, GitHub, Vercel, Render, Postman, Environment Variables (.env)

EXPERIENCE

Claw Steps

2025 – 2026

Full-Stack Next.js Developer & UI/UX Designer

New Delhi, India

- Re-architected and engineered the commercial web platform using **Next.js (App Router)**, **TypeScript**, and **Tailwind CSS**, delivering a responsive, mobile-first pet care application.
- Implemented an automated blog engine integrated with **Appwrite Cloud**, dynamic reading time computation, and **NextAuth (Google OAuth 2.0)** for restricted admin publishing.
- Engineered comprehensive SEO infrastructure using dynamic **generateMetadata()**, **LocalBusiness JSON-LD** structured schema, dynamic XML sitemaps, and automated 301 redirects.
- Configured real-time lead capture workflows utilizing the **Telegram Bot API** for instant admin alerts upon contact submissions and article publishing.
- Managed production deployment on the **Vercel Edge Network** with automated CI/CD pipelines, custom DNS routing on GoDaddy, and strict environment configuration.

Deepali Design Pvt. Ltd.

2023 – 2024

Archiving Specialist / Software Support

New Delhi, India

- Collaborated with developers to **test, debug, and validate** internal software tools across varied desktop and web environments.
- Supervised and maintained multi-gigabyte digital media repositories (CAD, 3D assets, PSDs) with strict data integrity controls.
- Streamlined digital asset pipelines to improve turnaround time for design team handoffs.

PROJECTS

KMW Decor – E-Commerce & 3D Product Platform | *Next.js, TypeScript, PostgreSQL, Prisma, Three.js*

2026

- Architecting a modern e-commerce web application with **Next.js (App Router)** and **PostgreSQL** utilizing **Prisma ORM** for transactional order and inventory management.
- Integrating interactive 3D product previews via **Three.js / React Three Fiber** and Google **<model-viewer>** with Draco compression for high-performance, mobile-friendly AR visualization.
- Implemented server-side actions for checkout workflows and dynamic product page rendering with structured **Product Schema (JSON-LD)** for enhanced SEO indexing.

- Engineered a modern, responsive single-page web platform utilizing **React, TypeScript, and Tailwind CSS** to present services, portfolios, and booking inquiries.
- Implemented multi-route client navigation using **react-router-dom**, featuring dedicated views for pricing packages, interactive location maps, and service breakdowns.
- Built rich interactive UI components including a **filterable performance video gallery**, modal video previews, testimonial swipe carousels, and smooth on-scroll animations.
- Designed and integrated a validated client inquiry form and FAQ accordion to streamline lead generation and customer conversion.

EDUCATION

GITAM	Completed 2025
<i>Bachelor of Computer Applications (BCA)</i>	New Delhi, India
• Coursework: Data Structures & Algorithms (DSA), Relational Database Management (RDBMS), Web Technologies, Software Engineering.	
GBSSS MG-Delhi	Completed
<i>Senior Secondary (12th Grade)</i>	New Delhi, India
• Core background in Mathematics and Computer Science fundamentals.
